

Guide for Super Admin

1. Login as an Administrator

The homepage of DepEd Monitoring is at mobileapp.deped.gov.ph. To login as an administrator, you will see the "Admin Login" link at the lower right portion of the page. Click it and input your administrator credentials on the login form. Click login and you will be redirected to the Admin Portal Dashboard.

On your initial login, you will be redirected to your account profile. You will be asked to update your temporary password.

Figure 1. DepEd Monitoring Landing Page (left) and Admin Login Page (right)

2. Admin Portal Interface

The user interface for the Admin Portal is very straightforward and easy-to-use. In this chapter, we will discuss the four (4) main parts of this portal.

1. **Navigation Bar** - In this portion, you will see a list of links that will help you access different parts of the Admin Portal.
2. **Main Content** - In this portion, all of the information are displayed in table form. There will be action buttons (view, edit, or delete) for each row. In most modules, there will be a New button displayed on the upper-right part.
3. **Account actions** - you can view your account by clicking this button . To logout, simply click this button .
4. **Filter** - to narrow down the list or data displayed in the Main content, you can use the filter fields in this portion. The available fields will vary depending on which module you are currently in.

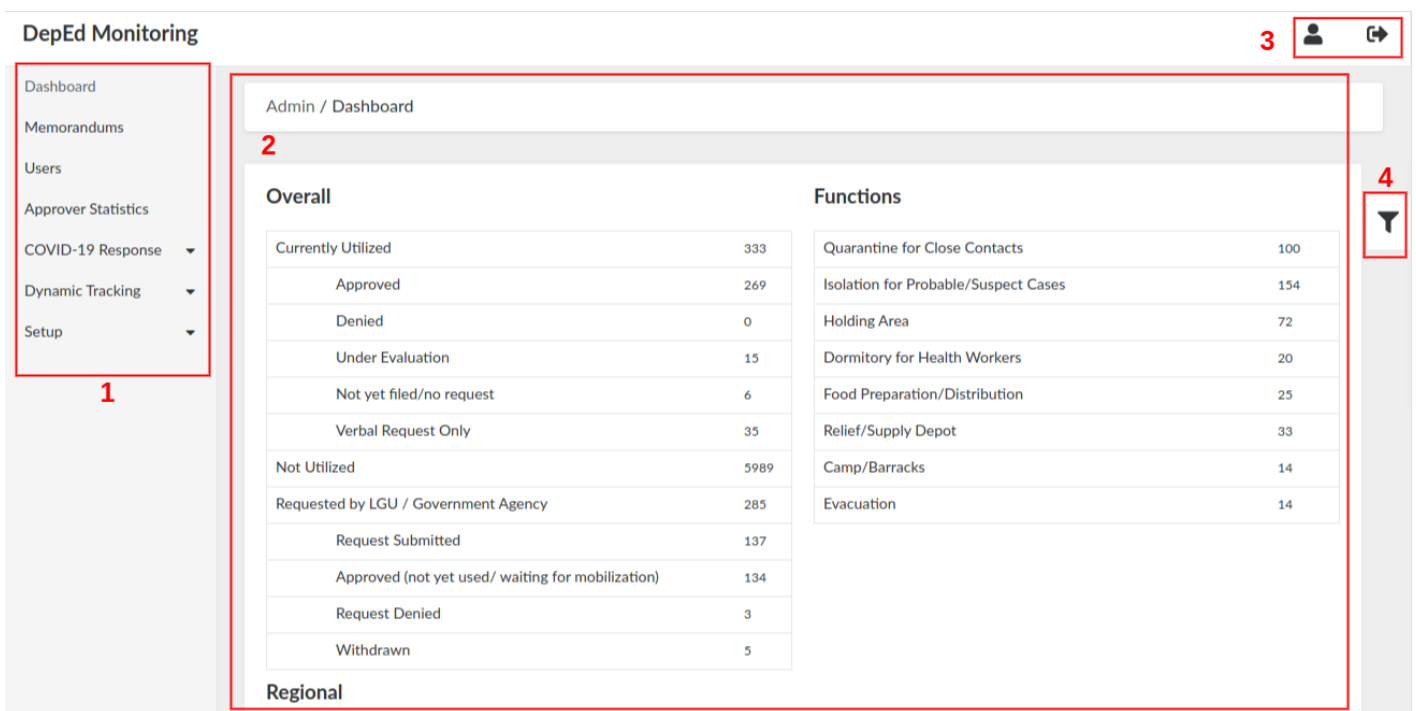

Figure 2. Admin Portal Dashboard

2.1. Dashboard

Dashboard is the homepage of the Admin Portal (see Figure 2). It contains the statistics of the responses gathered from the Facility Tracking survey (COVID-19 Responses).

The figures displayed here will change depending on what [type of administrator](#) is currently logged

in. For example, as a Super Admin, you can see the data here starting from the national level. You can narrow the data down by using the filters on the right (i.e. display data specific for NCR). Another example is if a Division IT Officer (DITO) is currently logged in, the available data displayed for them is already filtered by their designated division. They could only see the statistics for their division and the schools under it.

3. User Management

There are two kinds of users in DepEd Monitoring: an administrator and a normal user (survey respondents). As a Super Admin, you have the access to manage them both. You can create, view, edit, and delete an administrator and a user.

3.1. Administrator

This chapter will focus on managing administrators. As a Super Admin, you can view the list of administrators, create a new one, and you can also view, edit or delete an existing one.

3.1.1. Admin Roles

There are six (6) different admin roles available. Each one has its own access and permissions to the Admin Portal.

1. **Super Admin** - has access to all tasks (create, view, edit, and delete), modules, and reports; the only role that has the ability to delete a record.
2. **Central Office** - has access to all modules and reports and with tasks to create, view, and edit records.
3. **RITO (Regional IT Officer)** - has access to modules, reports, and users within jurisdiction; can edit records within their designated Region.
4. **DITO (Division IT Officer)** - has access to modules, reports, and users within jurisdiction; can edit records within their designated Division.
5. **Survey Creator** - has access to modules and reports specific to survey management, and with tasks to create, view, and edit records.

6. **Support** - has view and edit capabilities on limited modules.

3.1.2. View Administrator List

To view all the administrators, go to **Setup**, then select **Admin Users**.

On the top, you can filter the list by clicking a specific role. For example, in Figure 3, RITO has been clicked, that is why the list only displayed administrators with that role. More filters are available if you click the filter icon on the right. Available filter fields are: Name, Email, Region, and Division.

On the bottom, you can download the list of administrators displayed by clicking CSV.

Figure 3. Administrator List

3.1.3. Create a New Administrator

Step 1. Go to **Setup**, then select **Admin Users**.

Step 2. On the upper-right portion of the page, click the "New Admin User" button.

Step 3. Fill out the new administrator form.

- **Name** - input the full name of the new administrator
- **Role** - select the role you want to assign to the new administrator (see [Chapter 3.1.1](#)).
- **Region** - this is a required field only if you have selected the RITO role.
- **Division** - this is a required field only if you have selected the DITO role.
- **Account credentials** - input the email of the new admin, and generate a random password for them.

After giving the credentials, please advise the new administrator to update their password on their initial login.

Step 4. Click the "Create Admin user" button.

3.1.4. View a Specific Administrator

Step 1. Go to **Setup**, then select **Admin Users**.

Step 2. Search the specific administrator, and click their Administrator ID or the View button on the right.

<input type="checkbox"/>	54e04a02-0c7f-4c83-ae10-98ec5d68721a	Josephine L Dignadice	phinelim85@yahoo.com	DITO	June 08, 2020 11:14	3	April 22, 2020 01:36	<div>View Edit Delete</div>

Figure 4. Administrator ID (green box) and Action Buttons (yellow box)

In the view page, you can see the administrator details and a list of users this specific administrator has approved. The user approval process will be discussed in detail on [Chapter 3.2.4](#).

3.1.5. Edit an Administrator

Step 1. Go to **Setup**, then select **Admin Users**.

Step 2. Search the specific administrator, and click the Edit button on the right.

Step 3. Update the administrator user details.

Step 4. Click the "Update Admin user" button.

3.1.6. Delete an Administrator

Step 1. Go to **Setup**, then select **Admin Users**.

Step 2. Search the specific administrator, and click the Delete button on the right.

You can also delete multiple administrators at the same time. To do this, select multiple administrators by ticking the box on the left. Click "Batch Actions", then "Delete Selected".

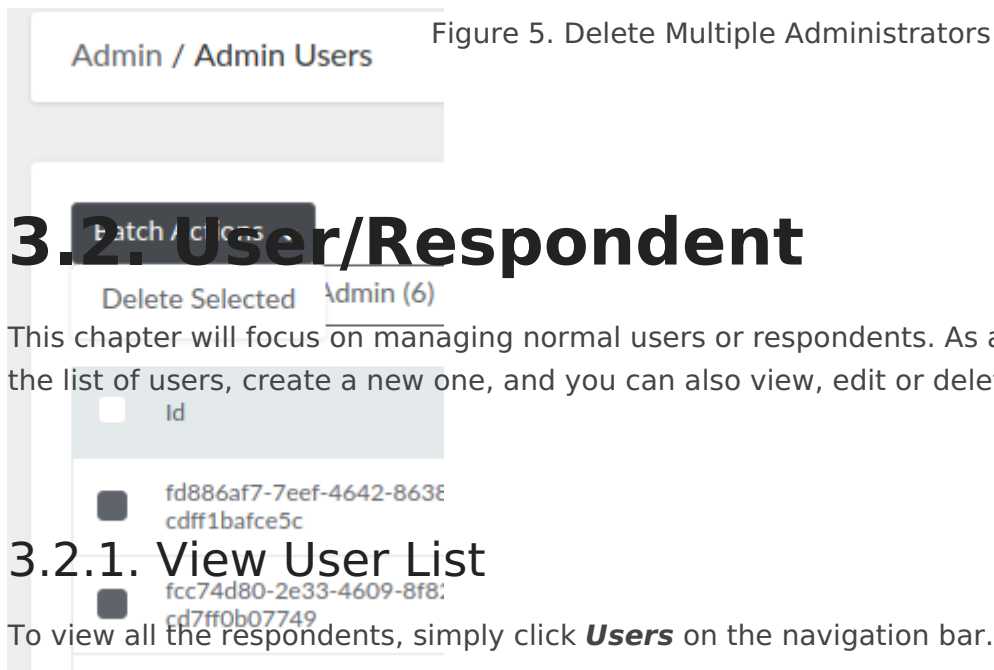

Figure 5. Delete Multiple Administrators

3.2. User/Respondent

This chapter will focus on managing normal users or respondents. As a Super Admin, you can view the list of users, create a new one, and you can also view, edit or delete an existing one.

3.2.1. View User List

To view all the respondents, simply click **Users** on the navigation bar.

On the top, you can filter the list by clicking a specific status:

- **Active** - approved users
- **Pending Approval** - users that have confirmed their account, but are not yet approved
- **Rejected** - users that have confirmed their account, but are rejected
- **Unconfirmed Registrations** - users that have not yet confirmed their account

More filters are available if you click the filter icon on the right. Available filter fields are: Email, Email validation status, Name, Mobile, Created at.

Figure 6. User List

3.2.2. Create a New User

Step 1. On the navigation bar, click **Users**.

Step 2. On the upper-right portion of the page, click the "New User" button.

Step 3. Fill out the new user form (user information and account credentials).

Step 4. Click the "Create User" button.

After creating a user, a confirmation email will be sent to them. This is part of their approval process, so it is very important that you have encoded the correct email address.

3.2.3. View a Specific User

Step 1. On the navigation bar, click **Users**.

Step 2. Search the specific user, and click the View button on the right.

In the view page, you can see the following data:

- **User details** - general information of the user
- **Special assignments** - surveys they are assigned to answer
- **Audit logs** - list of changes made to this specific user

3.2.4. Approve or Reject a User

An account can only be approved or rejected if the user has already confirmed their email address. To approve or reject a user, follow these simple steps:

Step 1. On the navigation bar, click **Users**.

Step 2. For easier search, click the "Pending Approval" filter on top of the page, then search using their email, name, or mobile number.

Step 3. Click the View button on the right.

Step 4. Click the Approve or Reject button on the upper-right portion of the view page.

- Some users registered twice using a DepEd email and personal email. Reject non-DepEd email registration.

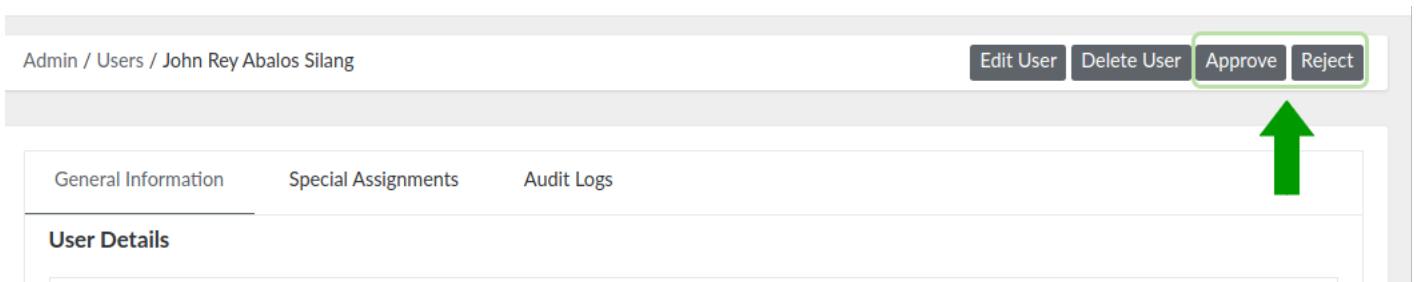

Figure 7. Approve User Button

Approved users will receive a welcome email and will be eligible to use the DepEd Mobile Application. While rejected users will only receive a rejection email, and will not gain access to use the mobile application.

3.2.4.1. Approver Statistics

In this module, you can view a list of administrators and their corresponding number of users approved. To access this, simply click **Approver Statistics** on the navigation bar.

You can generate a CSV report of this by clicking the "Export to CSV" button on the upper-right.

These statistics can only be filtered depending on the date of approval of the users. You can select whether the users are approved within the day, week or month.

Figure 9. Users Approved Table

3.2.4.2. Email Activities

Only Super Admins can access this module. This allows you to check all the emails that have been sent to users. Each email activity has two (2) important properties: category and status.

There are four (4) different email categories:

1. **confirm-signup** - this is the email sent after user creation
2. **welcome-email** - this is the email sent when the user has been approved
3. **rejection-email** - this is the email sent when the user has been rejected
4. **reset-password** - this is the email sent when the user has requested for a password reset

There are three (3) different email statuses:

1. **delivered** - if the email has been successfully sent to the user
2. **opened** - if the user has opened and read the email sent to them.
3. **failed** - if the sending of email has not been successful. One reason could be that the email is invalid.

3.2.5. Edit a User

Step 1. On the navigation bar, click **Users**.

Step 2. Search the specific user, and click the Edit button on the right.

Step 3. Update the user details.

Step 4. Click the "Update User" button.

Another thing that can be done on the user edit form is assigning the user to survey(s). This will be discussed in detail on [Chapter 4.5](#).

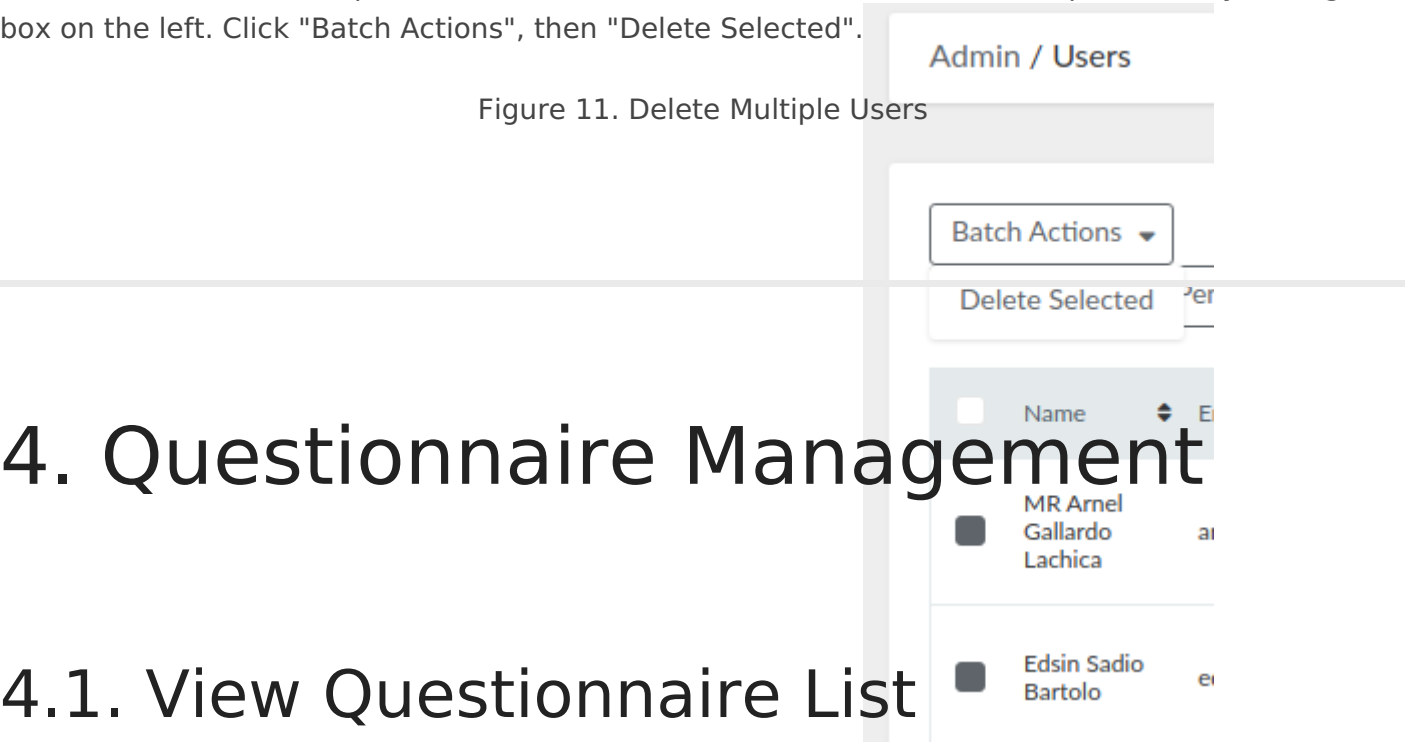

3.2.6. Delete a User

Step 1. On the navigation bar, click **Users**.

Step 2. Search the specific user, and click the Delete button on the right.

You can also delete multiple users at the same time. To do this, select multiple users by ticking the box on the left. Click "Batch Actions", then "Delete Selected".

Figure 11. Delete Multiple Users

4. Questionnaire Management

4.1. View Questionnaire List

To view all the questionnaires, go to **Dynamic Tracking**, then select **Questionnaires**.

On the top, you can filter the list by the questionnaire's allowed respondents (DepEd Users, Limited, Parents, or Students). You can also view all the archived ones by clicking the "Show Archived Questionnaires" button.

More filters are available if you click the filter icon on the right. Available filter fields are: Title, Description, Status, Created at and Updated at. Email validation status, Name, Mobile, Created at.

Water, Sanitation, and Hygiene (WASH) in Schools Monitoring Program for SY 2020-2021	[Submit by April 2021] To ensure the safety, health and well-being of learners as well as the teachers and other personnel, DepEd issued the Guidelines on the Required Health Standards in Basic Education Offices and Schools (DepEd Order No. 14, s. 2020). Schools are also encouraged to comply with the standards set out in the WinS Program which is at the forefront in preventing the spread of the COVID-19 virus. While schools are currently closed, infrastructure and other mitigating measures should be in place for safe school physical reopening and operations. Figure 12. Questionnaire List

4.2. Create a New Questionnaire

Step 1. Go to **Dynamic Tracking**, then select **Questionnaires**.

Step 2. On the upper-right portion of the page, click the "New Questionnaire" button.

Step 3. Fill out the new questionnaire form.

- **Title** - display name of the questionnaire
- **Description** - this is an optional field; can be used to add remarks or deadline for the questionnaire.
- **Allowed Respondents**
 - **All DepEd Users** - teachers or the approved users in DepEd Monitoring
 - **Limited DepEd Users** - survey can be assigned to specific users only (see [Chapter 4.5](#))
 - **Parents** - this option is specific for public surveys
 - **Learners** - this option is specific for public surveys
- **Share to non-DepEd individuals?** - tick this checkbox if you want the survey to be public.
 - the URL of public surveys for **teachers** and **parents** is mobileapp.deped.gov.ph/questionnaires
 - the URL of public surveys specific for **learners** is mobileapp.deped.gov.ph/learnerssurvey

A public survey can still be seen on the mobile application by an approved DepEd user. The user can choose to answer the survey on the mobile application, or anonymously via the public URL.

- **Questionnaire type**
 - **survey** - this survey records only one entry per user.
 - **tracker** - accepts multiple submissions. This is typically used for progress reports.
- **Allow response resubmissions?** - for survey-type questionnaires, tick this checkbox if you want to allow respondents to modify or update their entries. By default, tracker-type questionnaires allow response resubmissions.
- **Deadline** - this is an option to put a deadline on a questionnaire; date of the deadline is displayed on the description of questionnaire on mobile view

Step 4. Click "Create Questionnaire" button, or you can proceed to adding questions (see [Chapter 4.3](#)).

After creating new questionnaire, its initial status will be **DRAFT**. It will not be visible yet to the allowed respondents. You will need to activate it first (see [Chapter 4.4.3](#)).

4.3. Add Questions to Survey

Step 1. On the new or edit questionnaire form, click "Add/Edit Questions" tab.

Step 2. Click the "Add New Question" button.

Step 3. In the Content field, type in the question or the information you want to get from the respondent.

The content field allows specific html tags. Use `` for bold letters, `<i></i>` for italics, and `
` for a single line break.

Step 4. Select question classification.

- **Yes/No** - used for questions answerable by yes or no.
- **Numeral** - used for questions needing a numeric response.
- **Free form** - allows respondents to answer freely. It accepts alphanumeric characters.
- **Image** - used if you need the respondent to upload an image.
- **File upload** - allows respondents to upload files like pdfs and docs.
- **Select** - for questions with multiple choices needing ONE answer.
- **Checkbox** - for questions with multiple choices accepting multiple answers.
- **Ranked** - used for questions where the respondent is asked to arrange the given choices.
- **City/Municipality** - used for geolocation responses.
- **Division** - used for geolocation relating to divisions in the Philippines.
- **Region** - used for geolocation relating to regions in the Philippines.
- **School** - used for selecting schools under the Department of Education.
- **Header** - for header types of texts such as Titles
- **Paragraph** - for long texts such as instructions.
- **Date** - used for selecting date (mm/dd/yyyy).

Step 5. Tick the checkbox for "Required" if you want to require the user to answer this question. Leave it unchecked if you want the question to be optional.

Repeat steps 2 to 5 until all questions have been added. You can rearrange the questions by dragging and dropping the "Move" button on the lower right of each panel. You can also remove a question by ticking the "Remove this question?" checkbox.

Step 6. If you are done adding questions, click the "Create Questionnaire" or "Update Questionnaire" button.

After you update an existing questionnaire, its status will go back to **DRAFT**. Do not forget

to activate the survey again if it is already published (see [Chapter 4.4.3](#)).

4.4. View a Specific Questionnaire

Step 1. Go to **Dynamic Tracking**, then select **Questionnaires**.

Step 2. Search the specific questionnaire, and click the View button on the right.

The view page of a questionnaire has three (3) parts:

- **Questionnaire details** - general information and configuration of the questionnaire
- **Questions, Assignments, etc.** - in this part, you can view the list of questions of the survey. If a questionnaire is for limited users, you can assign the questionnaire to multiple users on the Assigned users tab.
- **Report recipients** - in this tab, you can assign recipients who will receive a daily report via email. The report contains submissions of the questionnaire.
- **Response Stats/ Downloads** - you can view and download the response statistics by: region, division or municipality.

If a questionnaire is a tracker, the response stats can be narrowed down by an as-of-date filter.

4.4.1. Adding Choices to Each Question

If the classification of a question is either Select, Ranked, or Checkbox, you will still need to add options after creating the survey.

Step 1. On the view questionnaire page, go to the **Questions, Assignments, etc.** part of the page.

Step 2. On the Questions tab, find the specific question that you want to update and click the edit button on the right.

Questions, Assignments, etc.

Questions (32)				
Ordinality	Content	Classification	Required	
1	Part 2: Respondent's Profile	Header	NO	edit
2	Sex	Select	YES	edit
3	City/Municipality where you presently live	City / Municipality	YES	edit
4	Community quarantine classification of your area	Select	YES	edit

Figure 13. List of Questions Inside the View Questionnaire Page

Step 3. Click the arrow beside options.

Step 4. Click the small box to open actions menu.

Step 5. Click Append.

Step 6. Type in the choice on the value field.

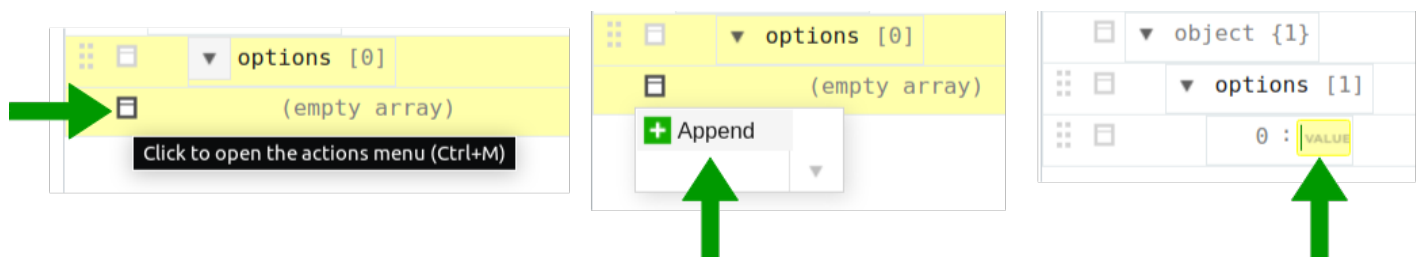

Figure 14. Steps 4 to 6 (from left to right)

Repeat Step 5 and 6 until you have added all the choices.

Step 7. Click the "Update Question" button to save your changes.

4.4.2. Manage Questions

Click on Manage Questions to further edit the items in a questionnaire.

Step 1. Select an item or multiple items by ticking the box beside each item.

Step 2. Select a batch action for the item/s selected. There are three batch actions that you can choose from.

- **Add to Header** - to group items under a header, select consecutive items first (Step 1) and then click on Batch Actions > Add to Header Selected. A dialogue box will appear and you need to choose which header your items will be grouped under (see Figure 16). Items under a header can be hidden or shown when the header is clicked on (like a dropdown feature).

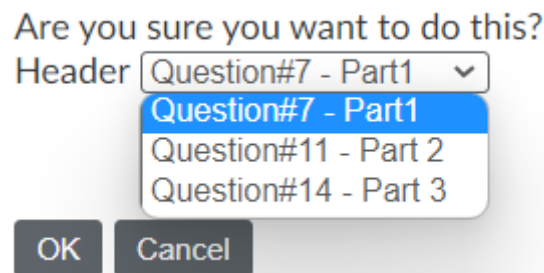

Figure 16. List of Header-Type Questions to Choose from.

- **Add to Yes or No** - to group items under a yes or no type of question, select the item/s (Step 1) and click on Batch Actions > Add to Yes or No Selected. A dialogue box will appear and you need to choose which yes or no type of question your item will be under. Your item will appear on the questionnaire depending on the value that you will set (see Figure 17).

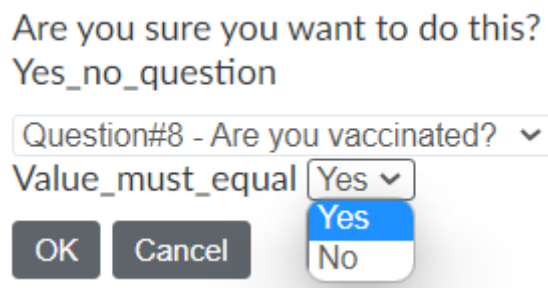

Figure 17. The select item in Step 1 will only appear in the questionnaire if user answers "Yes" in Question #8.

- **Add to Multiple Choice Selected** - to group items under a multiple choice type of question, select the item/s (Step 1) and click on Batch Actions > Add to Multiple Choice Selected. A dialogue box will appear and you need to choose which of the multiple choice questions your item will be under. Set the value to one of the choices in the multiple choice type of question. Your item will appear on the questionnaire depending on the value that you will set (see Figure 18).

The image shows a configuration interface for a questionnaire. On the left, the 'Meta data' section shows a tree structure with 'object {2}' containing 'options [4]'. The options are: '0 : I am an ETF Division', '1 : I am an ETF Regional', '2 : I am a PSDS', and '3 : I am with the EMB'. Below this is a field 'parent_question_value_must_equal : null'. A note below the meta data says 'Data for special question types: e.g. Select, Checkbox'. Below the meta data is an 'Ordinality' field with the value '1'. On the right, a table lists questions with columns 'Ordinality', 'Content', and 'Classification'. The questions are: 1. 'Please choose one' (Select), 2. 'Region' (Region), 3. 'Division' (Division), 4. 'Division' (Division), 5. 'School' (School), 6. 'Precinct' (Precinct), and 7. 'Please describe the situation' (Please describe the situation). A confirmation dialog is open over question 2, asking 'Are you sure you want to do this? Multiple_choice_question'. It shows 'Question#1 - Please choose one' with a dropdown menu showing 'Value_must_equal' and 'I am an ETF Regional'. There are 'OK' and 'Cancel' buttons.

Figure 18. In Figure 15, you can see that the first item is a multiple choice type of question. There are four values that you can choose from the multiple choice. If we add the second item to Question #1 (multiple choice type) and set value to "I am an ETF Regional", then second item will only appear on the questionnaire if your answer to Question #1 is "I am an ETF Regional".

4.4.3. Questionnaire Reports

- **Show Responses** - click this button to see the list of response entries from the questionnaire. Select a specific entry, and click its view button. This will show you the Report Information of the respondent and their individual response to the questionnaire. A revision history is also available if users are allowed to resubmit responses.

If a questionnaire is a tracker, a unique user can have multiple response entries. If a questionnaire is a survey, a unique can only have exactly one response entry.

- **Show Response Stats** -click this button to see the statistics for each option of all the questions.
- **Extract Responses to CSV** - click this button to download a CSV file containing all the responses of the survey
- **Regional / Division / Municipality Response Stats** - click this to see the number of responses per region, division, or municipality. There is a column for the number of responses from the public schools and private schools along with the sex of the respondent. There is also a column for the percentage of respondents from the total.
- **CSV Download** - response statistics can be downloaded in a CSV format. You may specify the geographic location of the response stats by selecting region, division, municipality and/or school.

4.4.4. Activate, Close or Archive a Questionnaire

The initial status of a questionnaire is **DRAFT**. This means that the questionnaire is not yet published on the DepEd Mobile Application.

- Click "Activate Questionnaire" to change the status from **DRAFT** to **ACTIVE**. This means that the survey is published and is available to the allowed respondents.
- Click "Close Questionnaire" to change the status from **ACTIVE** to **CLOSED**. This means that the allowed respondents could no longer answer the survey.
- Click "Archive Questionnaire" to change the status from **CLOSED** to **ARCHIVED**. This means that the questionnaire will be hidden from the list on the Admin Portal.

4.5. Assign Respondents to a Questionnaire

If the allowed respondents of a questionnaire is "Limited DepEd Users", you must assign the survey to specific users. You can either assign a specific user to a questionnaire, or assign multiple users at once.

4.5.1. Assign a Specific User to a Questionnaire

Step 1. Click **Users** on the navigation bar.

Step 2. Search for the specific user, and click the Edit button on the right.

Step 3. Click "Special Assignments".

Step 4. Click "Add New Survey assignment".

Step 5. On the Questionnaire field, search for the survey using its name.

NOTE: Only active questionnaires with "Limited DepEd Users" as the allowed respondents will be available on this list.

Step 6. Click the "Update User" button.

4.5.2. Assign Multiple Users to a Questionnaire

Step 1. Go to **Dynamic Tracking**, then select **Questionnaires**.

Step 2. Search the specific questionnaire, and click the View button on the right.

For easier search, narrow down the list of questionnaires by clicking the “Limited” filter on top of the page.

Step 3. Under the “**Questions, Assignments, etc.**”, click on the “Assigned Users” tab.

Step 4. Click the “Choose file” button, and select the CSV file containing the email addresses of the users you want to assign the questionnaire to.

You can download the CSV template by clicking the “Download this sample template file” link.

Step 5. Click the “Upload” button.

4.6. Unassign Respondent from a Questionnaire

The steps for removing the assignment of a respondent from a questionnaire is similar to the steps described in the previous chapter.

Step 1. Click **Users** on the navigation bar.

Step 2. Search for the specific user, and click the Edit button on the right.

Step 3. Click "Special Assignments".

Step 4. Tick the checkbox for "Remove this assignment?"

Step 5. Click the "Update User" button.

Questionnaire* WASH Facility Survey x ▼

☐ Remove this assignment?

Figure 19. Remove Survey Assignment from Respondent

4.7. Edit a Questionnaire

Step 1. Go to **Dynamic Tracking**, then select **Questionnaires**.

Step 2. Search the specific questionnaire, and click the Edit button on the right.

Step 3. Update the questionnaire details.

Step 4. Click the "Update Questionnaire" button.

After editing a questionnaire, its status will go back to **DRAFT**. Do not forget to activate the survey again if it is already published (see [Chapter 4.4.3](#)).

5. Facility Tracking (COVID-19 Response)

The Facility Tracking module is a list of responses submitted by the approved DepEd users who have answered the COVID-19 Facility Tracker survey, which is specifically about the use of school facilities during this pandemic.

To access this module, click **COVID-19 Response** on the navigation bar, then select **Facility Tracking**. The responses can be categorized in three (3) statuses:

- **In Utilization** - schools that are currently used during this COVID-19 situation
- **LGU Requested** - schools which have been requested for use
- **Not Used** - schools which are not in use

On the top, you can filter the list by clicking a specific status. For example, in Figure 16, "In Utilization" has been clicked, that is why the list only displayed responses with that status.

On the bottom, you can download the list of responses displayed by clicking CSV.

6. Memorandums

Administrators can setup memos and official announcements published on the DepEd Mobile Application that can be viewed by the approved DepEd users. To manage these, click **Memorandums** on the navigation bar. A rich-text editor is available to customize the appearance of the memorandum on the mobile app.

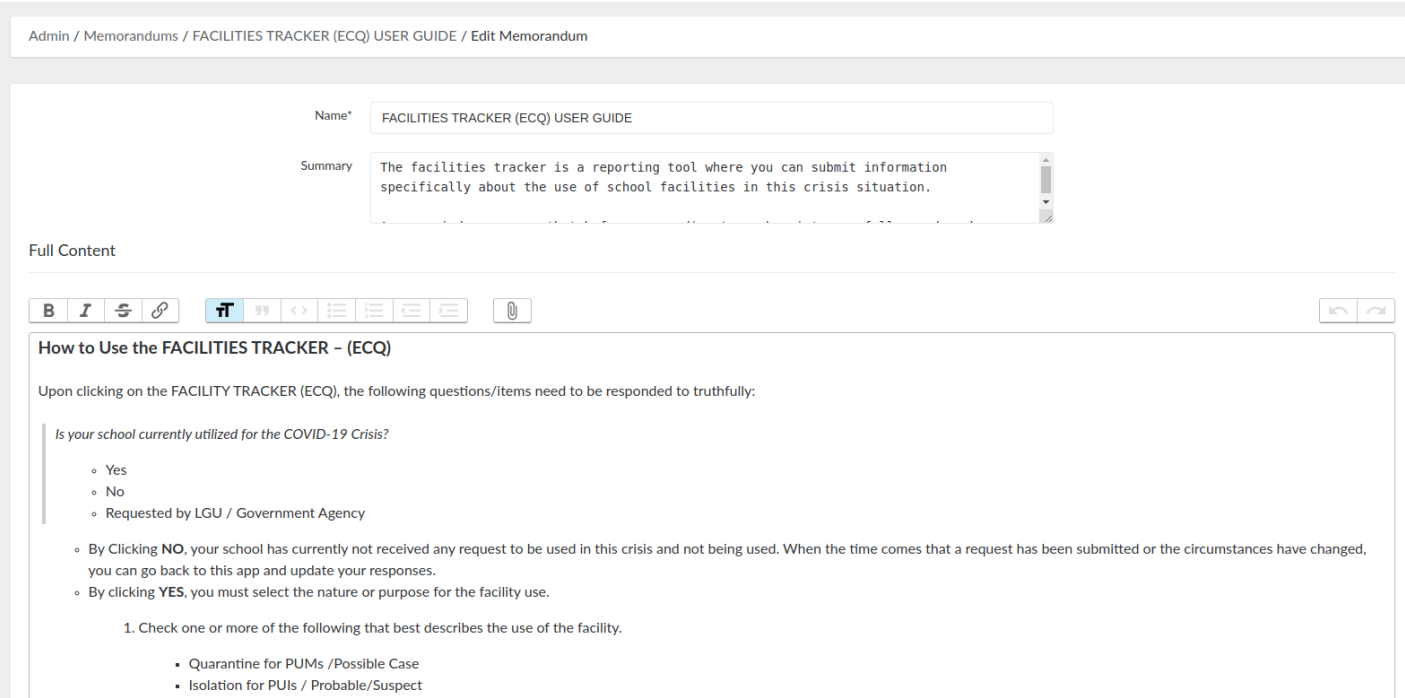

Figure 21. Memorandum Editor

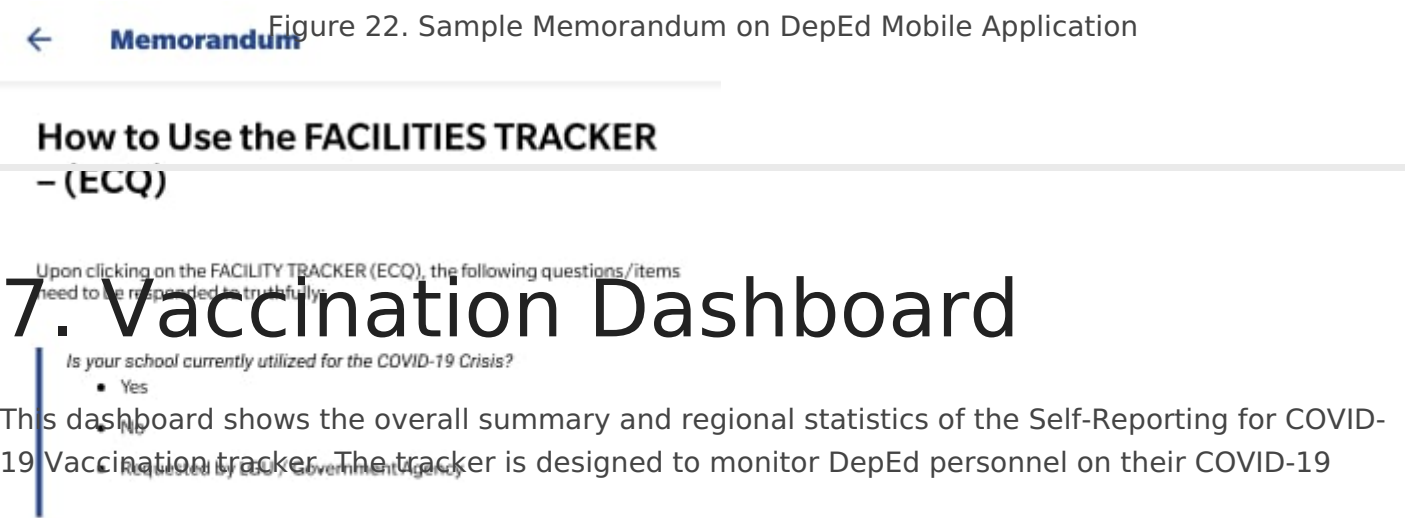

Figure 22. Sample Memorandum on DepEd Mobile Application

7. Vaccination Dashboard

This dashboard shows the overall summary and regional statistics of the Self-Reporting for COVID-19 Vaccination tracker. The tracker is designed to monitor DepEd personnel on their COVID-19

vaccination.

The overall summary shows the total number of respondents, vaccinated first dose, vaccinated second dose, and brand of vaccine received as well as other related data.

In the Regional Vaccination tab, select a region to show region summary page. The region summary page contains the same table as the overall summary except the statistics shown is the region you selected. There is a tab for Divisional Vaccination data where you can select a division that will redirect you to the Division Summary page.

The Division Summary page has the same table as the overall and regional summary but the are values for the selected division. Schools Vaccination data is also displayed in this page. The schools listed on the Schools Vaccination page are the schools under the selected division.

8. Setup

In this section you can create, view, edit, and delete region, division, municipality, barangay, and admin users.

You may also update a school to its appropriate region, division, municipality, and barangay by navigating to **Setup** and then click on **Schools**. Click the **View** button beside a school to view school details. In this page you will see **Sync with Commons School DB** button on the top right. Click this button to sync the school data with DepEd Commons database.
